Lindie:

RE: Old CD's being held for Lease No. 22-002716 since 1988.

These CD's were established with Kitsap Bank in Port Orchard to secure the Aquatic Lease with the State of Washington. In 2001 the dock was removed with proper documentation and the tide land lease was cancelled. It was our understanding that the CD's were released by the State. We left the CD's in the bank for emergency use at a future date. Recently when I went to the bank to get the money for the CD's, the bank could not release them as the State of Washington still had them assigned. We didn't need the money until now and we thought they were available funds.

Wilkins Distributing met all the requirements of the lease during the lease and all the requirements in removing the dock and cancelling the Aquatic Lease in 2001 – Therefore we hereby request the release by the State as we need the funds now and there is no reason that the approval should be withheld by the Department of Ecology after all these years with no activity at

the lease site. The DOE has never notified us of any concerns regarding our lease with the State of Washington either during the lease or anytime after the cancellation of the lease.

Please send this letter to the appropriate person responsible for this requested action and ask them to release our funds with Kitsap Bank and to send me a conformation letter of the release.

**Let me know if any further information is requested.
Thank you for your consideration.**

Yours truly,

A handwritten signature in black ink, appearing to read "R. A. Jensen", with a long horizontal flourish extending to the right.
